

Who		recom- mended use of affiliation	affiliation ^{*)}	recom- mended use of acknowl.	acknowledgment (long)	acknowledgment (short)	acknowledgment (very short)	acknowledgment (ultra short)
EMMI funded students or researchers (e.g. EMMI Fellows, EMMI Postdocs, EMMI PhD students, EMMI Visiting Professors)	at GSI	must	ExtreMe Matter Institute EMMI and Research Division, GSI Helmholtzzentrum für Schwerionenforschung, Planckstraße 1, 64291 Darmstadt, Germany	must	This work (or The work of J. Smith) was supported by the Helmholtz Alliance Program of the Helmholtz Association, contract HA216/EMMI "Extremes of Density and Temperature: Cosmic Matter in the Laboratory".	This work (or The work of J. Smith) was supported by the Alliance Program of the Helmholtz Association (HA216/EMMI).	supported by Helmholtz Alliance EMMI	supported by EMMI
	not at GSI	must	ExtreMe Matter Institute EMMI, GSI Helmholtzzentrum für Schwerionenforschung, Planckstraße 1, 64291 Darmstadt, Germany					
members of EMMI partner institutions publishing on EMMI physics	can		ExtreMe Matter Institute EMMI, GSI Helmholtzzentrum für Schwerionenforschung, Planckstraße 1, 64291 Darmstadt, Germany	shall (if affiliation is used)	This work (or The work of J. Smith) was supported by the Helmholtz Alliance Program of the Helmholtz Association, contract HA216/EMMI "Extremes of Density and Temperature: Cosmic Matter in the Laboratory".	This work (or The work of J. Smith) was supported by the Alliance Program of the Helmholtz Association (HA216/EMMI).	supported by Helmholtz Alliance HA216/EMMI	supported by HA216/EMMI
				shall (if affiliation is not used)	This work (or The work of J. Smith) was supported by the Helmholtz Alliance Program of the Helmholtz Association, contract HA216/EMMI "Extremes of Density and Temperature: Cosmic Matter in the Laboratory".	This work (or The work of J. Smith) was supported by the ExtreMe Matter Institute EMMI in the framework of the Helmholtz Alliance Program of the Helmholtz Association (HA216/EMMI).	supported by the ExtreMe Matter Institute EMMI in the framework of the Helmholtz Alliance HA216/EMMI	supported by the ExtreMe Matter Institute EMMI
EMMI associated partners publishing on EMMI physics	no			can	(J. Smith) is associated with the ExtreMe Matter Institute EMMI in the framework of the Helmholtz Alliance Program of the Helmholtz Association, contract HA216/EMMI "Extremes of Density and Temperature: Cosmic Matter in the Laboratory".	(J. Smith) is associated with the ExtreMe Matter Institute EMMI in the framework of the Helmholtz Association (HA216/EMMI).	(J. Smith) is associated with the ExtreMe Matter Institute EMMI in the framework of the Helmholtz Alliance HA216/EMMI.	(J. Smith) is associated with the ExtreMe Matter Institute EMMI.
guest researchers funded by EMMI publishing on EMMI physics	can (in case of long term stay)		ExtreMe Matter Institute EMMI, GSI Helmholtzzentrum für Schwerionenforschung, Planckstraße 1, 64291 Darmstadt, Germany	can	This work (or The work of J. Smith) was supported in part by the ExtreMe Matter Institute EMMI in the framework of the Helmholtz Alliance Program of the Helmholtz Association, contract HA216/EMMI "Extremes of Density and Temperature: Cosmic Matter in the Laboratory".	This work (or The work of J. Smith) was supported in part by the ExtreMe Matter Institute EMMI in the framework of the Helmholtz Alliance Program of the Helmholtz Association (HA216/EMMI).	supported in part by the ExtreMe Matter Institute EMMI in the framework of the Helmholtz Alliance HA216/EMMI	supported in part by the ExtreMe Matter Institute EMMI
